

They consist of 5 uninhabited and wild keys, protected everywhere by the coral reef called “**Horse shoe Reef**”

. The vegetation is constituted by very thick palm trees while the clear waters host many varieties of colourful tropical fishes.

Many **turtles** are swimming in those waters, which are used to co-habit with man. Swimming with the turtles is a unique experience.

The place is very popular during all the seasons: a destination that cannot be missed, in all **holidays** and **cruises** on **rented sailing boats** in the **Grenadines**.

The entire area was declared **Natural Park**, therefore utmost attention must be paid, avoiding fishing or water skiing. Rely on the “boat boys” that bring you bread, fruit and fish every day and dispose your garbage
